AMENDMENTS TO THE CLAIMS

This listing of claims will replace all prior versions and listings of claims in the application.

Listing of Claims:

Claim 1 (Currently amended): A method comprising:

capturing an image containing text in a first language with a digital camera of a device;
establishing with the device a wireless connection with a network;
transmitting the image containing text in the first language from the device over the network via the wireless connection;
receiving at the device a translation of the text in a second language over the network via the wireless connection; and
displaying at the device the translation of the text in the second language.

Claim 2 (Previously amended): The method of claim 1, further comprising:

receiving instructions to edit the image wherein transmitting the image comprises transmitting an edited version of the image.

Claim 3 (Original): The method of claim 1, further comprising displaying the image.

Claim 4 (Original): The method of claim 1, further comprising displaying the image and displaying the translation of the text in the second language simultaneously.

Claim 5 (Canceled)

Application Number 10/026,293

After-final Amendment responsive to final Office Action mailed August 25, 2005

Claim 6 (Original): The method of claim 1, wherein the image is a first image containing first text, the method further comprising:

- transmitting a second image containing second text in the first language over the network;
- and
- receiving a translation of the first text and the second text in the second language over the network.

Claim 7 (Original): The method of claim 6, further comprising transmitting the first image and the second image over a network in response to a single command from a user.

Claim 8 (Original): The method of claim 6, further comprising displaying one of the translation of the first text and the translation of the second text in response to a command from a user.

Claim 9 (Original): The method of claim 1, further comprising compressing the image.

Claim 10 (Original): The method of claim 1, further comprising receiving the image from an image capture device.

Claim 11 (Original): The method of claim 1, further comprising prompting a user to provide additional information comprising at least one of an account number, a password, an identification of the first language, and identification of the second language, a dictionary and a server location.

Claim 12 (Original): The method of claim 1, wherein the network comprises at least one of a wireless telecommunication network, a cellular telephone network, a public switched telephone network, an integrated digital services network, a satellite network and the Internet.

Claims 13-15 (Canceled)

Application Number 10/026,293

After-final Amendment responsive to final Office Action mailed August 25, 2005

Claim 16 (Currently amended): A device comprising:

a digital camera ~~an image capture apparatus~~ that captures an image containing text in a first language;

a transmitter that transmits the image over a network via a wireless connection so that the text can be translated by a different device;

a receiver that receives a translation of the text in a second language over the network via the wireless connection; and

a display that displays the translation of the text in the second language.

Claim 17 (Canceled).

Claim 18 (Previously amended): The device of claim 16, wherein the display displays the translation and the image simultaneously.

Claim 19 (Previously amended): The device of claim 16, further comprising a controller that edits the image in response to commands of a user.

Claim 20 (Canceled).

Claim 21 (Canceled).

Claim 22 (Previously amended): The device of claim 16, wherein the device comprises a cellular telephone that establishes the wireless connection so that the text can be translated by the different device.

Claims 23-25 (Canceled)

Application Number 10/026,293

After-final Amendment responsive to final Office Action mailed August 25, 2005

Claim 26 (Currently amended): A system comprising:

a client device including a digital camera ~~having an image capture apparatus~~ that captures an image containing text in a first language, a client transmitter that transmits the image over a network to a remote server via a wireless connection so that the text can be translated by the remote server, a client receiver that receives a translation of the text in a second language over the network from the remote server via the wireless connection, and a display that displays the translation of the text in the second language; and

the remote server including ~~having~~ a receiver that receives the image over the network from the client device, a translator that generates the translation of the text in the second language and a transmitter that transmits the translation over the network to the client device.

Claim 27 (Previously presented): The system of claim 26, the remote server further comprising an optical character recognition module that extracts the text from the image.

Claim 28 (Currently amended): A method comprising:

capturing a first image containing text in a first language with a digital camera of a device ~~an image capture device~~;

generating from the first image a second image containing the text in response to a command from a user, wherein generating the second image includes editing out one or more portions of the first image that do not include the text;

transmitting the second image from the device over a network so that the text can be translated ~~by another device~~;

receiving at the device a translation of the text in a second language over the network; and

displaying at the device the second image and the translation.

Claim 29 (Previously presented): The method of claim 28, further comprising establishing a wireless connection with the network.

Claim 30 (Canceled)

Application Number 10/026,293
After-final Amendment responsive to final Office Action mailed August 25, 2005

Claim 31 (Previously presented): The method of claim 10, wherein the image capture device comprises a digital camera.

Claim 32 (Previously presented): The method of claim 28, further comprising displaying the second image and the translation simultaneously.

Claim 33 (Currently amended): A device comprising:

~~a digital camera-an image capture apparatus~~ that captures an image containing text in a first language;

a controller that edits the image in response to commands of a user to edit out one or more portions of the first image that do not include the text;

a transmitter that transmits the edited image over a network so that the text can be translated by another device;

a receiver that receives a translation of the text in a second language over the network;
and

an output device that presents the translation to the user.

Claim 34 (Previously presented): The device of claim 33, wherein the controller establishes a wireless connection with the network and transmits the image over the network via the wireless connection.

Claim 35 (Previously amended): The device of claim 33, wherein the output device comprises a display that displays the edited image and the translation simultaneously.

Claim 36 (Previously presented): The device of claim 33, wherein the device comprises a handheld device.

Application Number 10/026,293

After-final Amendment responsive to final Office Action mailed August 25, 2005

Claim 37 (Currently amended): A method comprising:

capturing an image containing text in a first language with a digital camera of a device;
transmitting the image containing text in a first language from the device over a network
so that the text can be translated ~~by another device~~;
receiving at the device a translation of the text in a second language over the network;
and
displaying the image and the translation simultaneously at the device.

Claim 38 (Previously presented): The method of claim 37, further comprising:

storing a plurality of images containing text; and
transmitting at least a portion of the plurality of images over the network in response to a
single command from a user.

Claim 39 (Currently amended): The ~~system method~~ of claim 26, wherein the client device
further comprises a controller that edits the image in response to commands of a user.
